

E6012 Soft White Wheat

Genetic Information

E6012 is a new awned, white chaffed soft white winter wheat variety released from MSU. E6012 has a good disease package including improved resistance to Fusarium head blight and reduced DON levels. E6012 has good tolerance to stripe rust and BYD virus.

Agronomic Features

E6012 is short with good lodging resistance. It has good test weight averages with average maturity. E6012 has very good winter hardiness.

E6012 has very good yield potential and was in the upper half of white wheat varieties for yield in the 2015 MSU white wheat yield trials.

Marketing

The USDA Soft Wheat Quality Laboratory, Wooster Ohio in evaluations of samples of E6012 has found it to have acceptable quality.

E6012 will be applied for protected under the **Plant Variety Protection Act - Title V**. Seed of this variety can only be sold by variety name as a class of Certified Seed. Authorized seed classes will be Breeder, Foundation, and Certified.
