

Hayden Oat

Agronomic Information

Hayden is a mid to late maturing variety with excellent yield potential and high test weight. Hayden is resistant to smut, moderately resistant to barley yellow dwarf virus and moderately susceptible to crown and stem rust.

Marketing Information

Released in 2014, Hayden oats have a 30 cent/ bushel royalty assessed on each bushel sold as certified seed. MCIA has signed an agreement to act as SDSU legal agent to license and collect the royalty from Michigan producers. Hayden oats are applied for protected under the **Plant Variety Protection Act - Title V**. Seed of this variety can only be sold by variety name as a class of certified seed.

For more information or a list of producers, please contact your local seed dealer or the MCIA office at:
