

SY474 Variety Description

SY474 is a soft red winter wheat bred and developed by AgriPro Wheat. SY474 is a medium height semi dwarf variety with excellent standability. SY474 is moderately susceptible to Septoria Leaf Blotch and Spindle streak mosaic virus. SY474 is moderately resistant to Leaf Rust, Powdery Mildew and Head Scab. SY474 has very good stripe rust resistance. Primary adaptation is the wheat growing regions of Illinois, Indiana, Michigan, and Ohio.

SY474 has excellent yield potential and is widely adapted. SY474 has excellent lodging resistance and above average milling and baking qualities.

AgriPro maintains seed stock and certified classes of Foundation, Registered and Certified. Certified acreage is not to be published by AOSCA and certifying agencies. Plant Variety Protection is anticipated and SY474 may only be sold as a class of certified seed.
