

Ambassador Soft White Wheat

Genetic and Agronomic Information

AMBASSADOR is a short to medium, early maturing, white chaffed awnletted, high yielding soft white winter wheat with excellent winter hardiness. Ambassador has a good disease package and has acceptable milling and baking qualities, similar to other varieties commonly grown in Michigan.

Marketing

Ambassador is exclusively released to Platinum Genetics and is marketed by Cooperative Elevator Company and DF Seeds, Inc. Ambassador is patented and can't be saved by producers without permission from Platinum Genetics.

Ambassador will be sold by variety name as a class of Certified Seed. Authorized seed classes will be Breeder, Foundation, and Certified. Ambassador has a royalty assessed on each unit of certified seed sold.
