

MCIA Flipper Brand Soft Red Wheat

Genetic Information

MCIA Flipper brand wheat is a new awnless, white chaffed, soft red winter wheat that has performed very well in Michigan. MCIA Flipper is an early line with an excellent disease package and wide adaptability. It has good resistance to stripe rust and scab.

Agronomic Features

MCIA Flipper brand is an early season high yielding soft red winter wheat with good winter hardiness and lodging resistance.

MCIA Flipper has shown very good yield potential. MCIA Flipper was the ninth highest yielding line in the 2018 MSU wheat trials at 87.0 bu. / acre.

MCIA Flipper has performed well through the state in a number of conditions and environments.

Marketing

MCIA Flipper is marketed with a brand designation (variety not stated) by members of the Michigan Crop Improvement Association. Seed production will occur through license agreements with a royalty fee assessed on each unit of seed sold. MCIA Flipper brand seed will carry a green quality assurance tag as a sign that it has been inspected and tested to insure a high quality product. MCIA Flipper has acceptable milling qualities.

For more information or a list of producers, please contact your local seed dealer or the MCIA office.
